COGNYTE SITUATIONAL INTELLIGENCE SOLUTIONS

Cognyte Situational Intelligence Solutions (SIS) is a leading global provider of intelligence-driven security solutions.

Utilizing advanced AI and predictive analytics, Cognyte solutions can help anticipate, prevent and mitigate threats across industries. Our robust, open and scalable solutions are unified with advanced intelligence, transforming the standard security operations center (SOC) to an intelligent SOC. The Cognyte Situational Intelligence Solutions provides a full range of applications across industries, governments, enterprises, critical infrastructure, transportation, retail and more.

Open, Robust and Scalable Platform

Our robust, open and scalable solutions are unified with advanced intelligence. Whether in the cloud or housed on a local server, our technology is nimble, adaptive and fully customizable.

Seamlessly Integrate Technology

Cognyte SIS scales with its customers – we meet you where you are and grow with you. Legacy technology is easily integrated, so clients can maximize their investment and optimize our solutions.

Customized Security Solutions

No two organizations are the same and neither are their security needs. Cognyte SIS draws on deep expertise, prolific R&D, and a comprehensive global footprint to deliver innovative, customized and strategic security solutions for each individual client.

Protect What Matters Most

INTELLIGENCE POWERED SECURITY

- Unify data from physical and IT security systems into a centralized console that provides holistic visibility across the operating environment
- Open, scalable and flexible architecture designed to integrate easily with existing technology and optimize performance
- Collect vast amounts of critical data and convert it into actionable intelligence
- Leverage cyber intelligence to anticipate threats and mitigate active incidents

- Provide accurate insight to make faster, better-informed decisions
- Enable a quicker, more effective response by dispatching the right resources, with the right equipment, to the right location for the best possible outcomes
- Simplify forensic investigations and reporting requirements

SITUATIONAL INTELLIGENCE SOLUTIONS EXPERTISE

Cognyte's SIS advanced security and intelligence solutions help organizations around the world overcome the most critical security challenges.

- Situational Awareness
- Retail Crime & Inventory Shrink
- Ensuring Business & Operations Continuity
- Rapid Response
- Safe City
- Protecting Critical Infrastructure
- Active Shooter Mitigation
- Immigration Control
- Business Enhancement
- Public Safety & Security

Symphia™

Transform the siloed, "swivel chair" security operations center (SOC) into a unified command center. Fuse and contextualize critical data from various sources and inputs to create a holistic, single-pane-of-glass intelligent security operation center (ISOC) that see, analyze and respond.

Protect What Matters Most

SYMPHIA PORTFOLIO

Cognyte Situational Intelligence Solutions delivers comprehensive and predictive situational awareness that gives security teams critical insight to act swiftly, definitively, and accurately. Powered by sophisticated intelligence, the Symphia suite of solutions is built on an open architecture and integrates easily with legacy systems, enabling organizations to optimize existing technology while improving the performance and scale of their security operations.

Symphia VMS

Symphia VMS features powerful, fully integrated video management tools, including automated system health monitoring and event responses, investigation management, and a software-based virtual matrix. The solution also provides interactive facility maps, a powerful and intuitive video viewing interface, an ultra-thin client for remote/mobile users and more. Powered by sophisticated analytics, Symphia VMS makes video security more manageable, reliable and cost-effective. With Cognyte's actionable intelligence, operators can anticipate, prepare for and respond to potential threats or incidents. The open architecture is flexible and integrates easily with existing technology. Scale from a single location to a large, complex and geographically distributed operation quickly and easily. With Symphia VMS, you can see what's happening, everywhere.

Symphia One

Symphia One transforms the standard security operations center (SOC) to an intelligent security operations center (ISOC). Designed for single site, small to mid-size installations, the data-driven security management and response system delivers all the advantages of a robust security solution at a fraction of the cost. Leveraging advanced AI and predictive analytics, Symphia One delivers actionable intelligence to help predict, prepare and prevent potential threats and mitigate active incidents. Increase operational efficiencies, reduce overhead and build on existing technology with this innovative, flexible and scalable data-driven security management and response system. Symphia One enables a more concerted security approach for much better outcomes.

Symphia Control

Symphia Control collects, interprets and contextualizes massive amounts of data from multiple systems and inputs to deliver comprehensive situational awareness for greater command and control. Leveraging sophisticated analytics, Symphia's situation management solution generates actionable intelligence that enables operators to make immediate decisions with up-to-the-minute information. Predict, prepare for and prevent potential threats and mitigate active incidents – all from a single, centralized interface. Increase operational efficiency by automating systems and processes, improve response times, ensure compliance and simplify forensic investigations and reporting requirements. Symphia Control enables physical security orchestration for quick and confident decision making.

Symphia NowForce

Sophisticated incident management and response technology fuses critical data and immediately provides comprehensive situational awareness that ignites action. Dispatchers, responders and other resources can share insights— in real time— utilizing live and historical event data with GIS maps, geo-fencing, responder positions, reporter inputs, and other external sources. As data is continuously collected, processed and analyzed, security officials can coordinate efficient, appropriate and rapid incident response and enhanced field communications. Symphia NowForce helps you take decisive action when every second counts.

Protect What Matters Most

Symphia FaceDetect

Intelligent facial recognition analytics technology with one of the most accurate matching algorithms in the industry. Powered by AI, the versatile video analysis solution can provide immediate situational intelligence to security operations. Symphia FaceDetect helps you track and alert on persons of interest appearing in video surveillance streams in real-time (or forensically), across multiple sites and thousands of cameras simultaneously. Identify multiple faces within a crowd, at any angle, with any light variation in seconds. Symphia FaceDetect helps you pick the right person out in a crowd.

Symphia Connect

Symphia Connect enables unidirectional or bidirectional flow of data between integrated safety and security systems across the Symphia portfolio. The integrations are an integral part of the product and they are designed, certified, maintained and supported by Cognyte Situational Intelligence Solutions. With these integrations, the organization can improve response time, lower costs and increase operational efficiency. Symphia Connect literally connects the dots for much better performance.

PROFESSIONAL SERVICES

The Situational Intelligence Solutions Professional Services team delivers outstanding results for clients. We are committed to building customers for life and provide dedicated support, certified Project Management, and expert Field Engineering and Solution Architects to a variety of projects and initiatives globally. We support some of the largest and most complex deployments in the world and offer centralized hosting options. All our Project Managers are PMP-certified and the Project Management Office (PMO) methodology is the most proven enterprise-class, mission critical methodology in the market. Our Professional Services team has extensive capabilities to tackle even the most complex deployments, anywhere in the world. Our Customer Success Managers immerse themselves into every aspect of our clients' projects, as well as their future goals and initiatives to ensure their success. We provide comprehensive service, support and training 24 hours/day, 7 days/week.

Protect What Matters Most

THE COGNYTE PROMISE

For more than 25 years, Cognyte has cultivated the brightest minds in security and intelligence and applied this expertise towards a dynamic, forward-thinking corporate strategy dedicated to innovation and growth.

We serve more than 1,500 customers globally across all industry sectors, including transportation, critical infrastructure, government, safe city initiatives, enterprise, retail and healthcare.

We are committed to building customers for life, investing heavily in R & D and partnering with best-in-class technical and channel partners to ensure our clients' success. Trusted and deployed globally, Cognyte Situational Intelligence Solutions is committed to protecting what matters most: *people, property and the continuity of business and operations.*

Depend on Cognyte

Clients worldwide depend on Cognyte's award-winning solutions to protect what matters most.

- Enterprises
- Campuses
- Hospitals
- Corporate Headquarters
- Critical infrastructure
- Federal and state agencies
- Law Enforcement
- Fire and EMS Departments
- Airports
- Sea Ports
- Train Stations
- Transportation Infrastructure
- Public Buildings

ABOUT COGNYTE

Cognyte is a global leader in security analytics software that empowers governments and enterprises with Actionable Intelligence for a Safer World™. Our open software fuses, analyzes and visualizes disparate data sets at scale to help security organizations find the needles in the haystacks. Over 1,000 government and enterprise customers in more than 100 countries rely on Cognyte's solutions to accelerate security investigations and connect the dots to successfully identify, neutralize, and prevent threats to national security, business continuity and cyber security.

ABOUT COGNYTE SIS

Cognyte's Situational Intelligence Solutions helps enterprises and governments manage complex security operations, fuse information from various sources, analyze vast amounts of data, and gain insight for better incident management, response and investigations.

With our solutions, organizations can see what's happening across their operations, make quick and confident decisions for decisive actions. Powered by our Symphia portfolio of solutions, we help our customers orchestrate better outcomes to protect what matters most.
